

## Quantity Buttons for Magento®2

Thank you for purchasing our extension! If you have any questions - feel free to email us [magery.themes@gmail.com](mailto:magery.themes@gmail.com)

# Overview

This extension improves user experience by adding plus and minus buttons to a quantity input.

Give your customers the ability to change a product quantity using simple quantity increment/decrement buttons.

The module is quite flexible, there are no template modifications.

## Applicable areas

This extension covers all standard Magento areas containing quantity inputs (frontend area).

### Community Edition:

- Product page (all product types including bundle products)
- Minicart
- Cart page
- Wishlist

### Enterprise Edition:

- Quick Order page
- Requisition List in my account
- Quote edit page

Note: this extension doesn't handle quantity increments configuration.

## Installation

1. Copy contents of the src directory to the root directory of your Magento installation.
2. Run these commands to enable the module:

```
php bin/magento module:enable Magery_QtyButtons  
php bin/magento setup:upgrade
```

## Enterprise Edition module installation

The base module **Magery\_QtyButtons** should be installed first.

There is an additional module available for Enterprise/Cloud editions:

### **Magery\_QtyButtonsEe**

It can be installed using this commands:

```
php bin/magento module:enable Magery_QtyButtonsEe  
php bin/magento setup:upgrade
```
